August 20, 2021

Dear Residents, Tenants, Family Members and Employees,

I would like to invite any family members of resident to attend a family meeting on zoom on Wednesday, August 25 at 6 pm. I will send the zoom invite out in a second e-mail. This meeting is to communicate with you any new information of ongoing things happening at St. Francis.

We had a great week here and have been enjoying dining, activities and getting outside in the great weather. We had an outdoor BBQ on Wednesday. Everyone really enjoyed it. It was great to see the residents and employees have fun together.

We are only testing once per month and will test again on Monday, September 6. We are only testing our employees who have not been vaccinated for Covid 19. If we have any employee with symptoms than we are required to test them. If we have any positive tests than we go back into response testing. The covid 19 transmission rates have also gone up in our county so employees are required to wear goggles or face shields.

As part of our screening process visitors will be asked if they have been vaccinated. They are not required to provide proof of the vaccine. We are asking all visitors to wear masks and eyewear due to the high transmission rate in our county. Masks are still required in the hallways to and from rooms or the front living room where most visits will continue to take place. In any instance where both vaccinated and unvaccinated staff, residents, or visitors are present, all those present must wear masks and those that are not vaccinated must socially distance from one another. Compassionate care visits in residents' rooms will continue as they have been. **It is important that you schedule visits at least 24 hours in advance. We are still required to do the prescreening per CMS and the NH Public Health guidelines.** Please continue to call Diane to schedule your visits at ext. 300.

Residents who have their meals in the dining rooms and participate in group activities are not required to wear masks if everyone in the room is fully vaccinated. Social distancing will no longer be required as well. If any resident or employee in the room is not vaccinated then everyone in the room will be required to put on their masks and those who are not vaccinated must socially distance from the others. Residents and staff members will still be required to wear their masks in the hallways.

Residents are permitted to go on car rides with family members and visit in family members homes. The guidance around this is that the residents and family members should be vaccinated. We ask that you call 24 hours in advance for prescreening questions and be screened prior to taking your loved one out. We are discouraging going out to restaurants with residents at this time. We can also accommodate guests who would like to have a meal with their loved ones as long as they are fully vaccinated. We can not have guests eat in our main dining room yet but we can provide a private area where they can dine with their loved one.

We wanted to let you know that volunteers are now able to come in. They are required to be fully vaccinated. If you or someone you know is interested in becoming a volunteer at St. Francis please call Alex at ext. 338. We would love to have more volunteers to visit with residents, help take residents outside to enjoy the beautiful weather or help residents to attend more of the activities that are offered.

While we know this is a challenging time for you and your family, please be assured that we remain committed to the care and support of your loved one here at St. Francis. Their safety, health and well-being remain our firm commitment.

We will continue to keep you updated as time goes on.

God bless,

Brenda Buttrick RN, LNHA
Administrator
